## PROCEDURES FOR ACCOMMODATIONS AND ACADEMIC SUPPORT

1. Parents submit application for eligibility, including a recent psycho-educational evaluation from a licensed clinician which documents a specific diagnosis and recommendations for classroom accommodations.
2. Parents and students sign and submit the shared responsibility agreement.
3. Academic Support Team reviews documentation and application for accommodations.
4. Family is contacted by the Academic Support Team to schedule an appointment to develop an Accommodations and Academic Support Plan.
5. Guidance counselors and teachers are notified of any accommodations the student needs to be successful in the classroom. Guidance counselors and teachers receive a copy of the student's Accommodations and Academic Support Plan.

**Please note:** The presence of a learning disability does not automatically guarantee academic accommodations. JPPII will carefully review all relevant information related to the request for accommodation to determine if the learning disability has a significant impact on a student's performance. If a determination is made to support learning accommodations, JPPII will formalize an Accommodations and Academic Support Plan for the student that will specify his/her accommodations. This plan will be shared with a student's parents, teachers, and guidance counselor and can be used when requesting standardized testing accommodations during high school. The plan will be reviewed on a yearly basis.
